# Catkchi Games

It is a platform that brings the fun of gambling, sports banking, Esports, among other recreational environments, to the Chia ecosystem. The main objective of the platform is to provide players with a trustworthy and transparent environment in which they can have fun with their favorite games.

**What games does the platform support?**

In the startup phase we will support lottery games:

- **Quiniela:** The person plays an amount to a number between 1 and 100 and if your number wins you receive as a reward the amount you have played multiplied by 25 if your number is the winner in first place or multiplied by 10 if it is chosen in second place.

Other lottery games to be implemented:

- Pallet
- Triplet •
  Super Lotto

Sports Banking, Esport, etc. games will be implemented gradually,

**What Cryptocurrencies will be accepted as a means of payment?**

Initially, only Chia (XCH) and Catkchi (CTK) will be accepted, but in the future we will implement currencies from other blockchains such as BTC, USDT, among others.
